PROJECT NARRATIVE

Answer the following questions using additional pages (**3 page max**).

1. Briefly explain the project's pre-development conditions and current usage.
2. Explain the project's planned post-development conditions. This narrative should be clearly illustrated on the conceptual site plan.
3. Describe the project objectives in light of improving the environment and neighborhood. How will these be met?
4. Outline the scope of work, being sure to include a project timeline. Note any in-kind contributions and planned monitoring efforts?
5. Does the project include partners? If so, describe the role of each.
6. Explain how the project will include community participation and education and indicate by what means (e.g., community events, press releases, project signage, presentations, etc.).
7. How will this build support for local water quality efforts?
8. Define project success and how it will be measured for both the immediate impacts and long-term goals.
9. Why is this project important to do now?
10. What is your project timeline?
